MY Printer

MY is the latest hi-tech designed mini portable printer by Custom.

It's ultra-light and compact with high paper capability (paper roll diameter 30mm)

High printing autonomy thanks to 5 batteries: about 20mt of printed paper!

USB or RS232 interface with special cable.

Thanks to Bluetooth technology, MY printer prints from mobile phones and PDAs.

Usually Custom technology: patented opening device and chip card reader included!

Additional belt holder.

Available in shiny white or black.
